XMUM 26/12 ORIENTATION

Facilitator Handbook

How to use the Vortexa website with your Facilitator account, step by step.

What Is Inside

1 **Getting Started** — Sign in, find your way around, sign out — 3

2 **Home** — Group code, partner, profile, progress and scores — 5

3 **Checklist** — Group name, location update, attendance, live GPS — 9

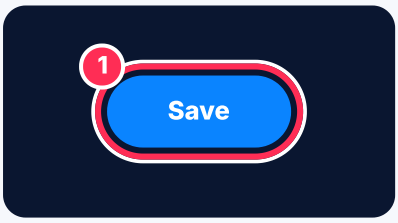

4 **Map** — Your location sharing, stations, where every group is — 15

5 **Items** — Your group's tokens and puzzle keys — 17

6 **Schedule** — The programme for Day 1 and Day 2 — 18

7 **Help** — Fixing problems, dos and don'ts, quick reference — 19

How to Read This Handbook

A red circle shows exactly where to tap or what to look at.

The number on the circle is the same as the step number beside the picture. Do the steps in order.

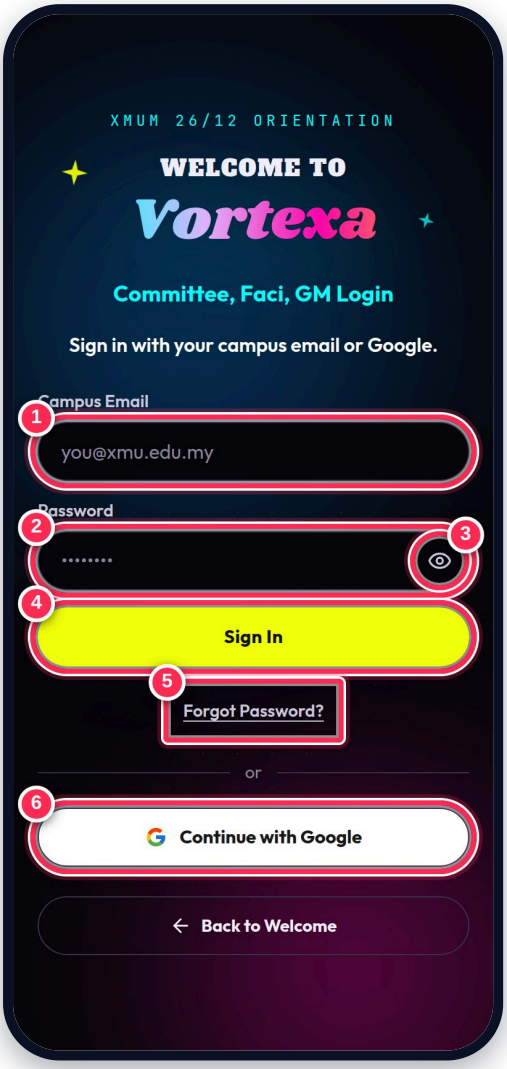

All pictures use **sample data** (Group 1, a sample Facilitator and a made-up password). Your screen shows your own name and your own group.

Your Job in One Minute

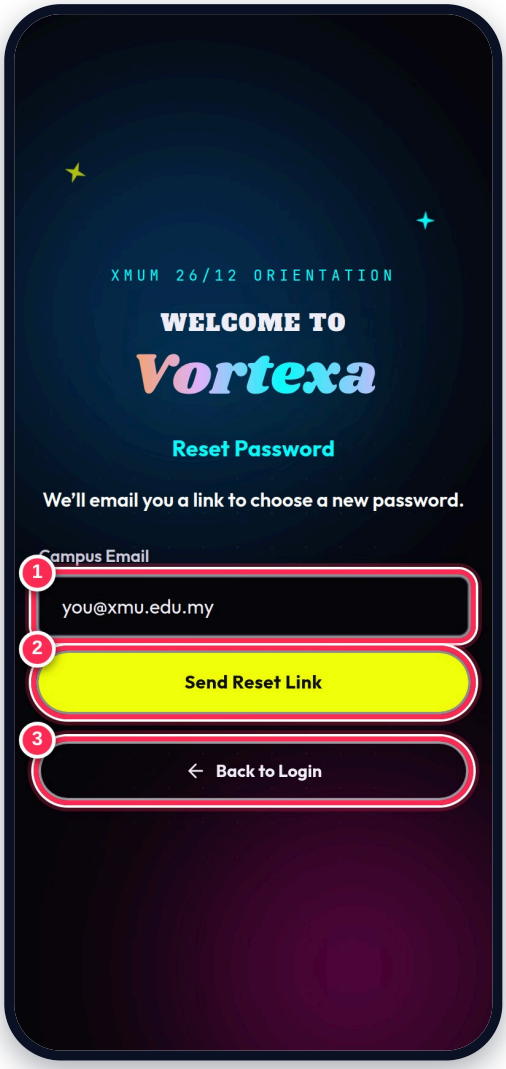

ONCE	Set your **Group Name and Slogan** and fill in your **Profile**.
EVERY 30 MINUTES	Send a **Manual Location Update** and **Take Attendance** on the Checklist. They turn amber and say *Due* when it is time.
ALL DAY	Keep **Live GPS** on and the site open on one phone in your group, so your group stays on the map.
WHEN FRESHIES ARRIVE	Show them the **Group Code** (QR or 4-digit password) on your Home page.

1.1 Sign In

Open the Vortexa website on your phone and log in with the account the organisers gave you.

Login page

Reset Password page (1.2)

1. Type your **Campus Email** (`you@xmu.edu.my`).
2. Type your **Password**.
3. Tap the **eye** to show the password and check for typing mistakes.
4. Tap **Sign In**. You land on your Home page.
5. Forgot your password? Tap **Forgot Password?** (see 1.2).
6. Or tap **Continue with Google** if you use your Google account.

1.2 Forgot Password

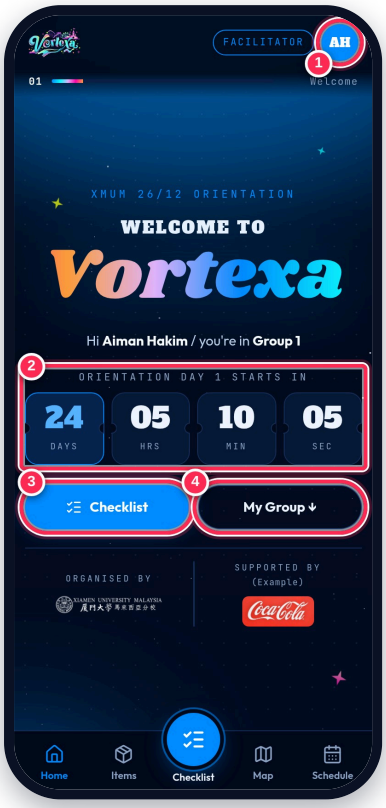

1. Type your **Campus Email**.
2. Tap **Send Reset Link**. Open the email and follow the link to choose a new password.
3. Tap **Back to Login** to return to the login page.

GOOD TO KNOW

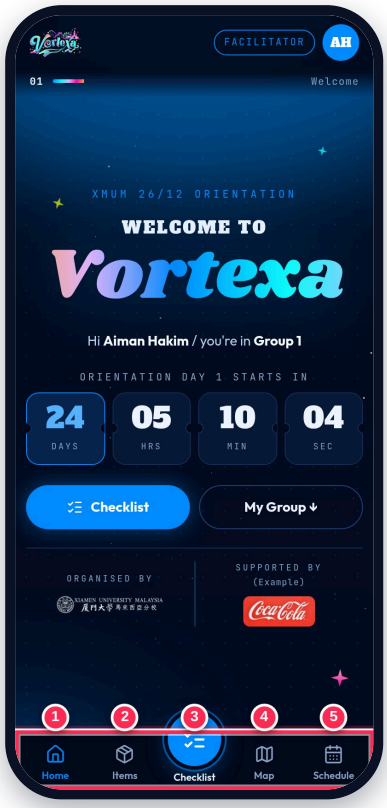

Your account is created and put in a group by Admin. If you sign in with Google for the first time, an Admin may need to approve you before the Home page opens.

1.3 Find Your Way Around

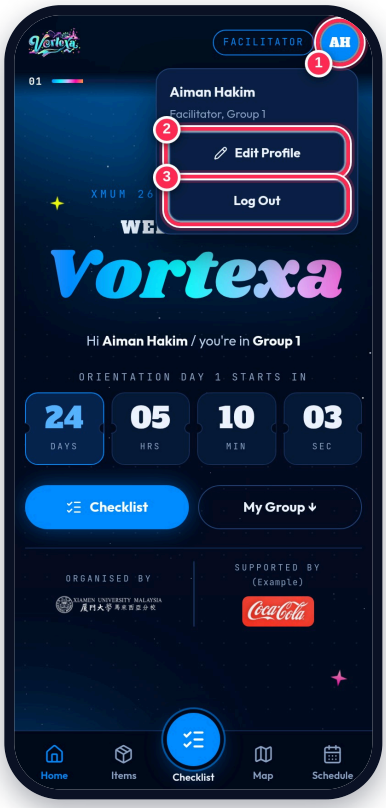

Every page has the same tab bar at the bottom and your profile button at the top right.

Home page

The tab bar

The account menu

1. **Profile button** with your initials or photo. Tap it for the account menu.
2. **Countdown** to the next part of the event. During a game it shows the live phase and timer.
3. **Checklist** opens your daily tasks (Part 3).
4. **My Group** scrolls down to your Group Code.

1. **Home**: group code, partner, progress.
2. **Items**: your group's tokens and keys.
3. **Checklist**: the big round button in the middle. Your daily tasks.
4. **Map**: campus map and group locations.
5. **Schedule**: the programme.

1. Tap your **profile button**.
2. **Edit Profile** changes your photo, Instagram and intro (see 2.4).
3. **Log Out** signs you out of this phone.

TIP

Home is one long page. Swipe up to move through it: Welcome, Action Plan, Group Code, Partner, Progress, Scores and How It Works. The small bar at the top shows where you are.

2.1 Group Code

Freshies open your group's page by scanning your group's QR or typing its 4-digit password. Both are on your Home page.

Home / Group Code

1. The **QR code** for your group. Let Freshies scan it with their phone camera. It never changes.
2. The **4-digit password**. Freshies can type it instead of scanning.
3. **Download QR** saves the QR card as a picture, so you can send or print it.

How to Get Here

On Home, tap **My Group** under the countdown, or swipe up to the **Group Code** section.

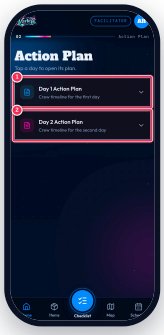

IMPORTANT

Share the password only with the Freshies in your own group. Admin can give your group a new password at any time. The QR stays the same.

GOOD TO KNOW

The QR and password in this picture are samples. Yours are different.

2.2 Action Plan

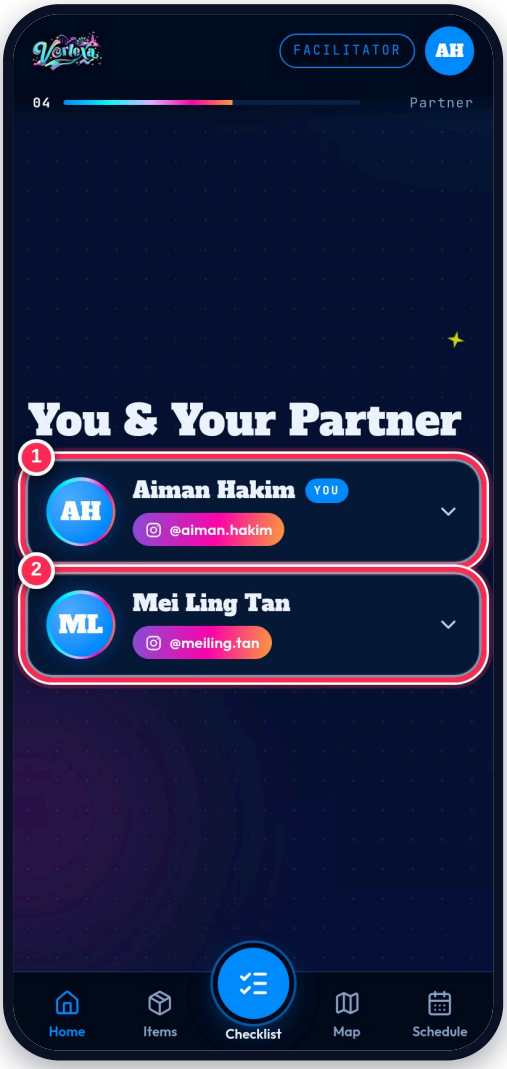

1. **Day 1 Action Plan**: tap to open the crew timeline for Day 1.
2. **Day 2 Action Plan**: tap to open the crew timeline for Day 2.

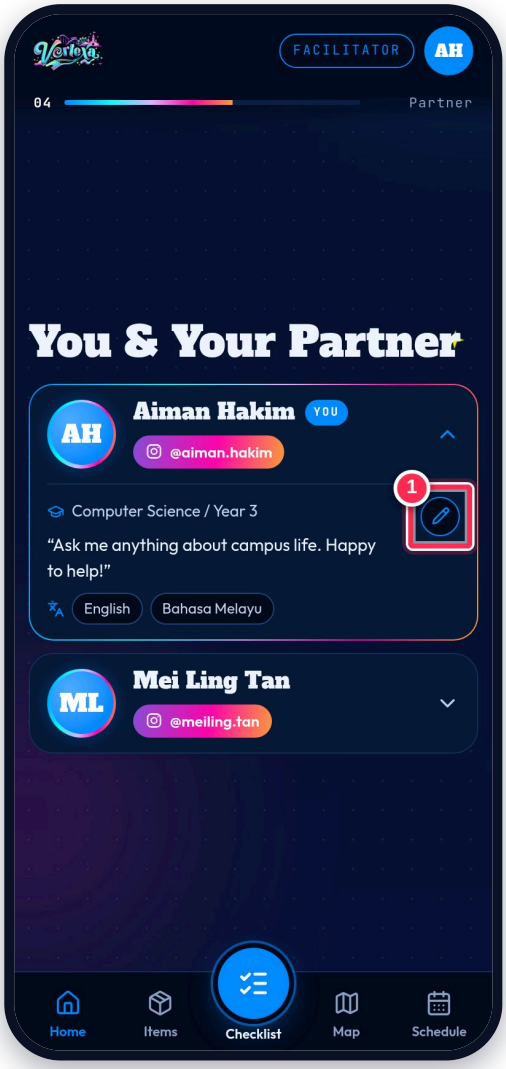

Inside, tap **Open Full Size** to zoom in.

2.3 You and Your Partner

Every group has Facilitators who work as a team. This section shows you and your partner, the way Freshies see you.

Home / You and Your Partner

Your card, opened

1. **Your card**. It is marked **YOU**. Tap anywhere on it to open it.
2. **Your partner's card**. Tap it to read their programme, languages and intro.

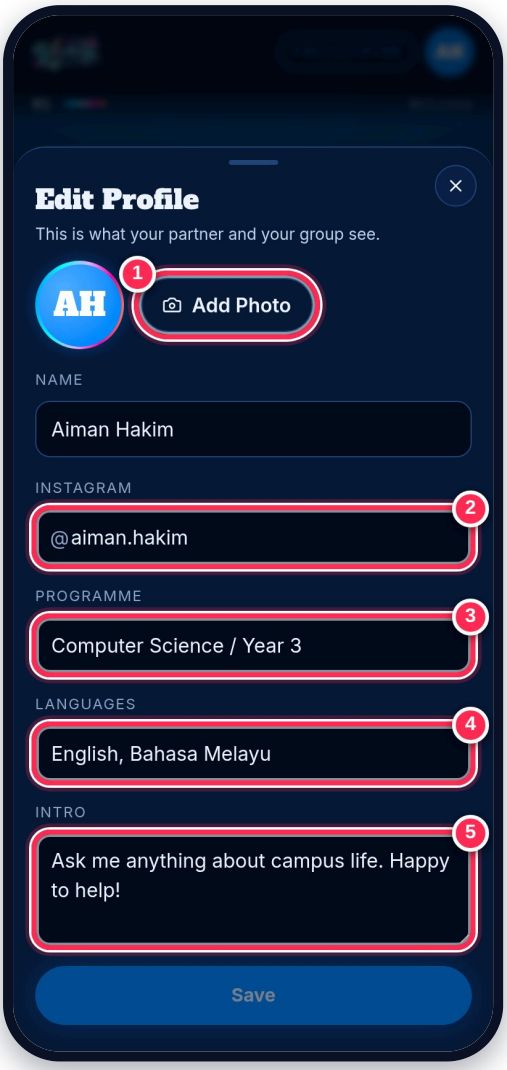

1. Tap the **pencil** on your own card to edit your profile.

GOOD TO KNOW

Freshies see the same cards under **Your Facilitator**. A clear photo and a friendly intro help them find you on the day.

2.4 Edit Your Profile

Tell your group who you are. You can change this any time.

Edit Profile

How to Open It

Tap your **profile button**, then **Edit Profile**. Or tap the **pencil** on your card (2.3).

1. **Add Photo** (or **Change Photo**). Pick a clear photo of your face. The app crops it square and makes it smaller for you.
2. **Instagram**: your handle only, without the @. Leave it empty if you prefer.
3. **Programme**: for example *Computer Science / Year 3*.
4. **Languages**: separate with commas. Up to 6.
5. **Intro**: one or two lines to your group (up to 160 characters).

Then tap **Save** at the bottom. Save turns on once you change something. Tap the **X** to close without saving.

> **TIP**
> Your **Name** sits above Instagram. Check that it is spelled the way you want Freshies to read it.

2.5 Your Progress and Scores

Follow how your group is doing in the game. You can only look here. The games are played by the Freshies.

Home / Your Progress

Home / Tokens

1. **Tokens** your group owns right now.
2. **Puzzle Pieces** collected. Each of the three keys needs 5 pieces. When a key is complete, its lamp lights up.
3. **FAQ** opens the rules, help and contacts.
4. **Items** opens the full Items page (Part 5).

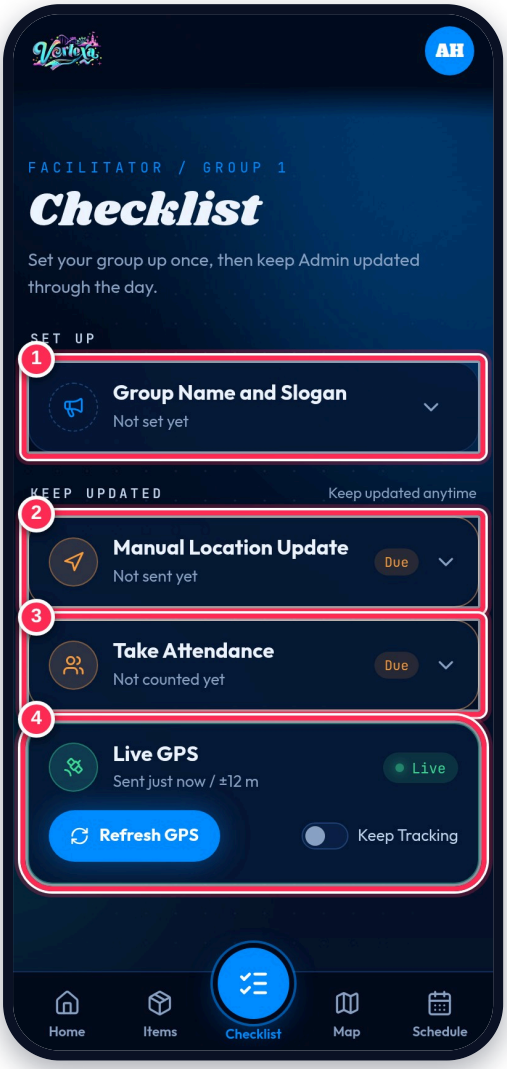

1. Your own group is highlighted and marked **YOU**. All groups are ranked by tokens.

GOOD TO KNOW

The scoreboard goes live from 28 Nov. The numbers in this picture are samples.

3.0 The Checklist

The Checklist is your daily work. Open it with the big round **Checklist** button in the middle of the tab bar.

Checklist

1. **Group Name and Slogan**. Set it once.
2. **Manual Location Update**. Tell Admin where your group is.
3. **Take Attendance**. Count the people at your gathering point.
4. **Live GPS**. Shows whether your phone is sending your group's position to the map.

Tap a Task to Open It

Tap the card (or the arrow on the right) to open its form. Only one task is open at a time.

What the Colours Mean

Due	**Amber.** You have not sent it yet, or the last one is more than **30 minutes** old. Do it now.
just now	**Not amber.** Up to date. It shows how long ago you sent it, for example *5 min ago*.
✓	**Tick.** A one-time task that is finished (Group Name and Slogan).

IMPORTANT

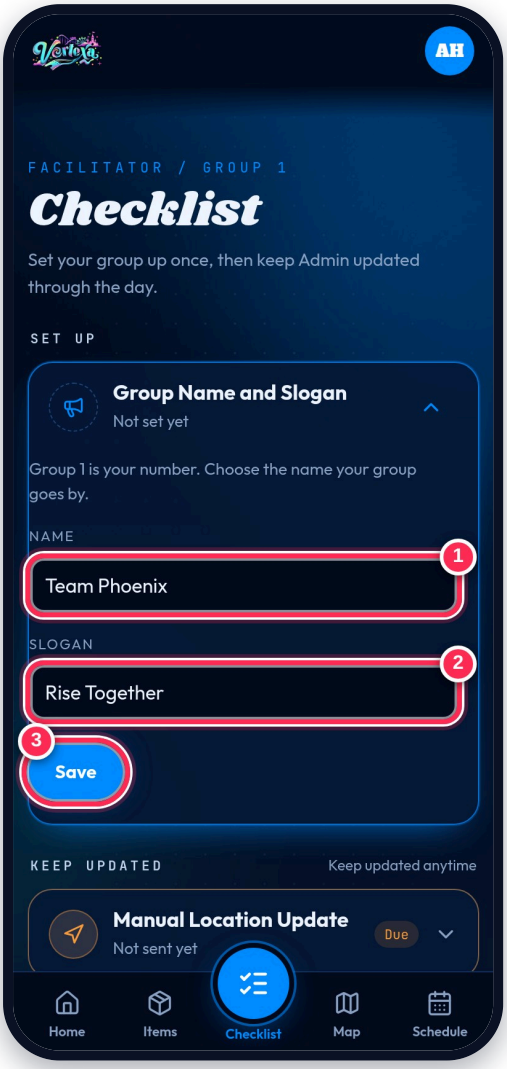

Location and attendance are **never finished for good**. Admin can ask for them at any time, so send a new one about every 30 minutes, and whenever your group moves.

GOOD TO KNOW

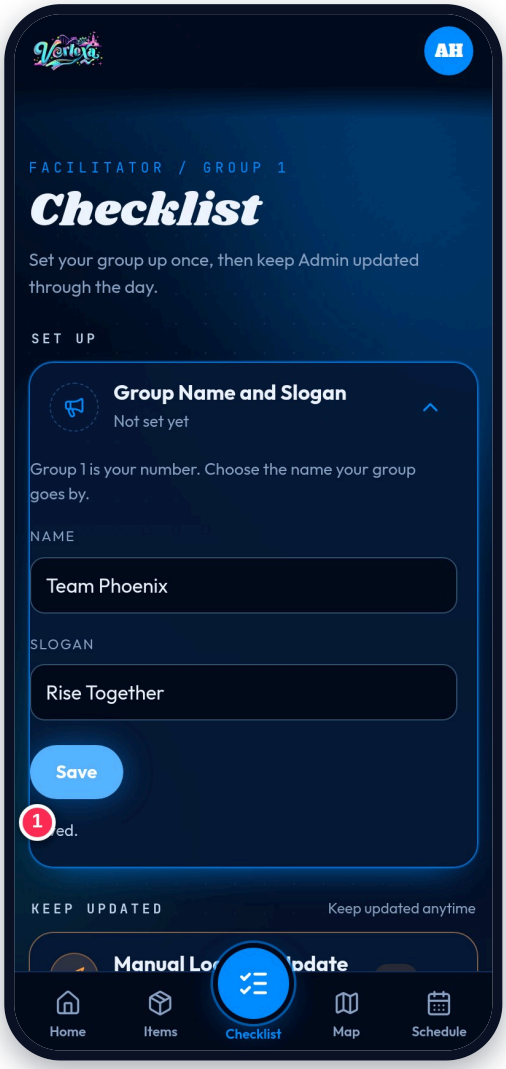

Your partner can send these updates too. The Checklist always shows the **latest** one sent by anyone in your group.

3.1 Group Name and Slogan

Choose the name your group goes by. Do this once, with your partner, before the Freshies arrive.

Group Name and Slogan, opened

After tapping Save

1. Type your group's **Name** (up to 40 characters).
2. Type a short **Slogan** (up to 80 characters). This one is optional.
3. Tap **Save**.

1. **Saved.** appears under the button. Your group name is saved.

GOOD TO KNOW

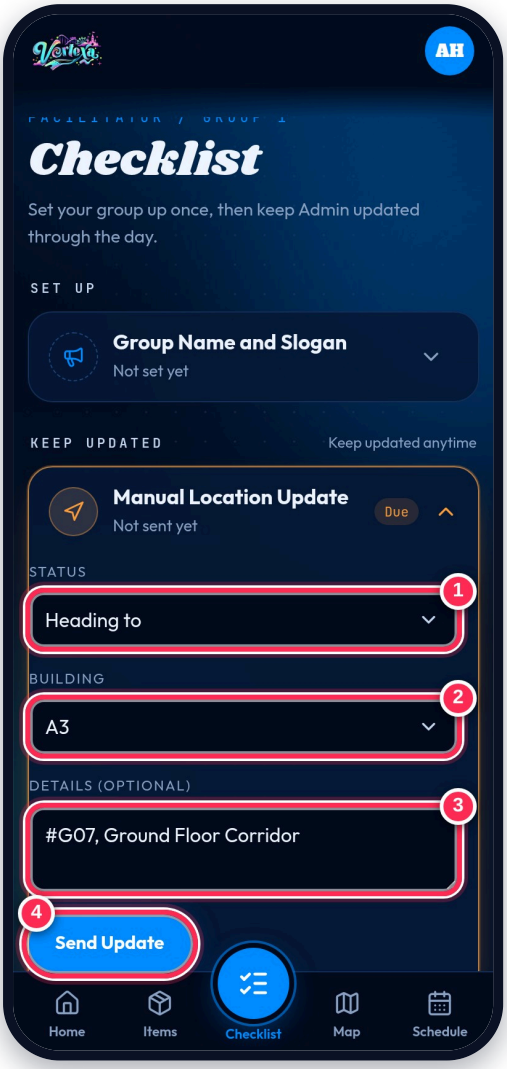

Your group **number** (for example Group 1) never changes. You are only choosing the name your group goes by.

TIP

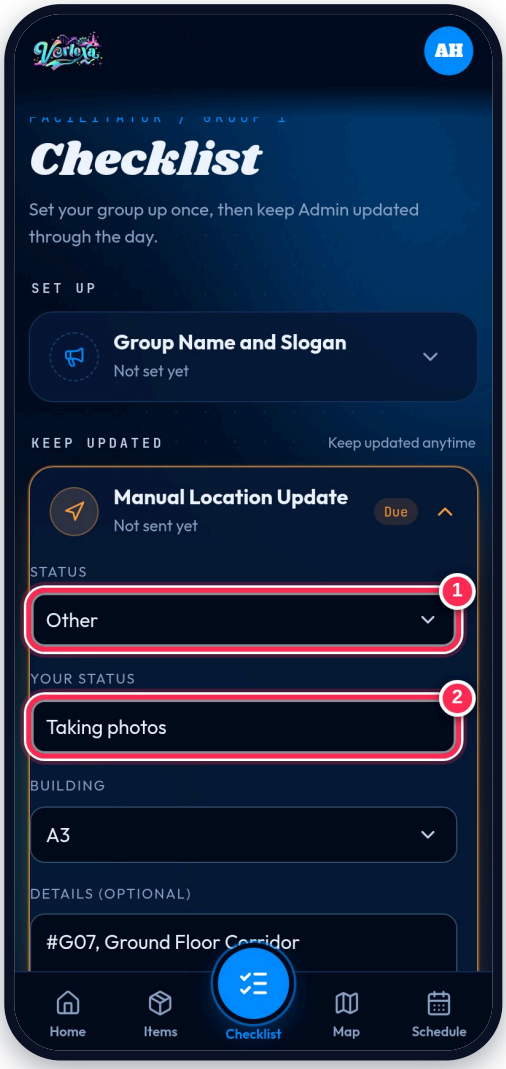

Agree on the name with your partner first. You can change it later by saving again.

3.2 Manual Location Update

A short written note of where your **group** is: heading to a building, or arrived at one. Admin and the organisers read it to know where everyone is.

Manual Location Update, opened

When Status is Other

1. **Status**: Heading to, Arrived, or Other.
2. **Building**: choose where you are going or where you are.
3. **Details (Optional)**: a room or a short comment, for example *#G07, Ground Floor Corridor*.
4. Tap **Send Update**.

1. Choose **Other** when neither fits. A new box appears.
2. Type your own status in **Your Status**, for example *Taking photos*.

TIP

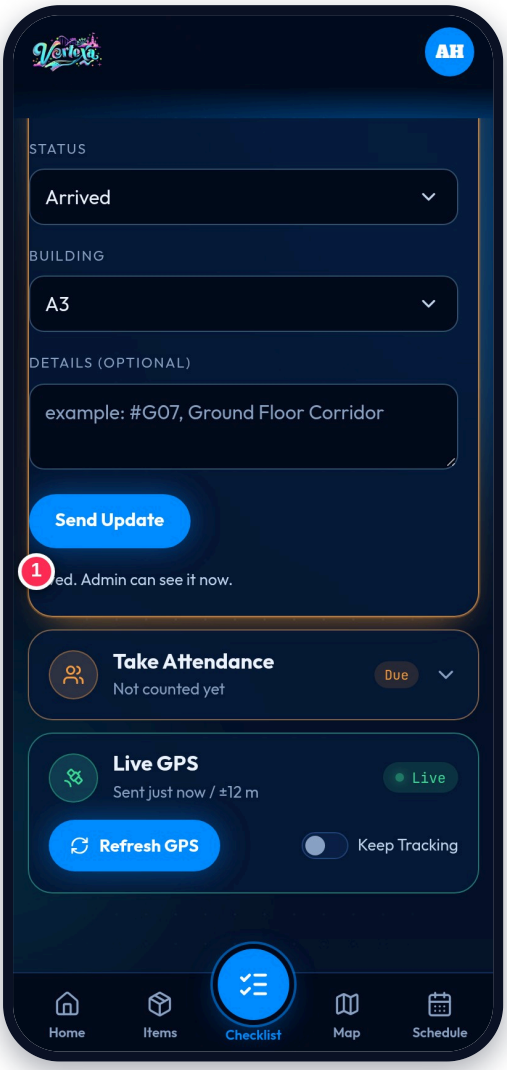

Use **Heading to** when you leave, and **Arrived** when you get there. Two quick updates keep Admin informed without calls.

GOOD TO KNOW

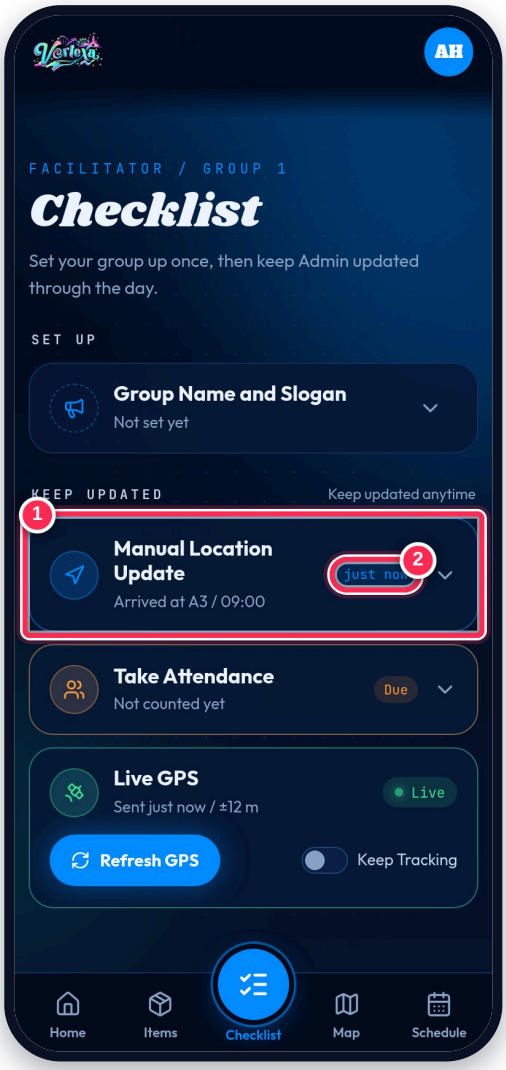

This note is text only. It does not move your pin on the map. The map uses Live GPS (3.4).

3.2 Manual Location Update continued

After you send, check that it went through.

Right after Send Update

The card on the Checklist

1. **Saved. Admin can see it now.** appears under the button.

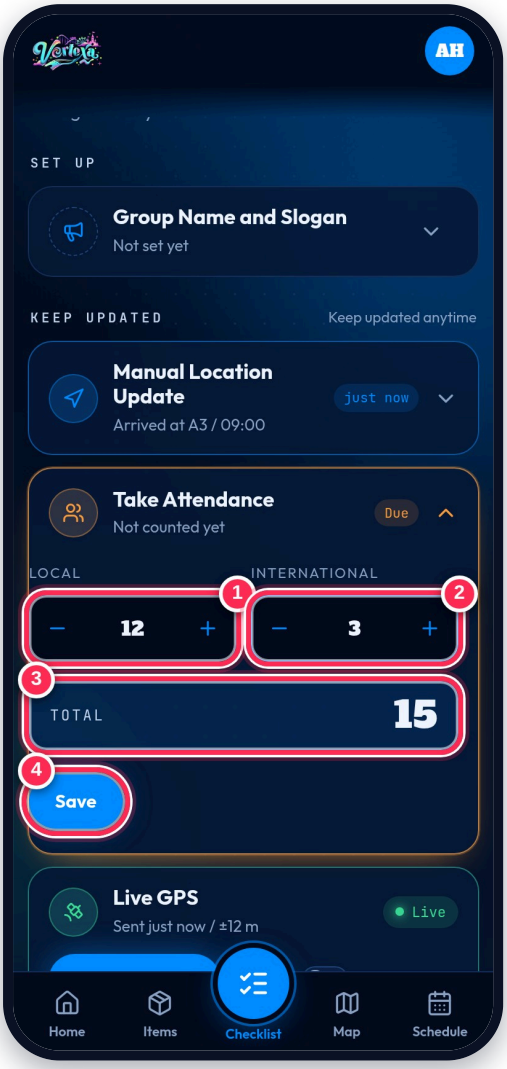

1. The card shows your last update, for example *Arrived at A3*, with the time.
2. The pill turns blue and says **just now**. It turns amber and says **Due** again after 30 minutes.

GOOD TO KNOW

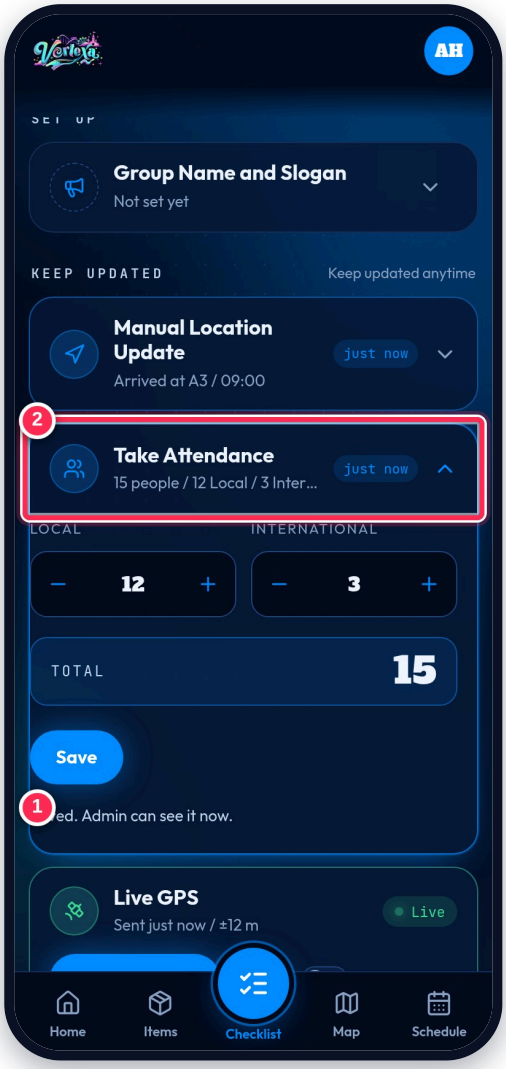

If Admin corrects an entry, the card says **(edited by Admin)**. You can always send a newer update.

3.3 Take Attendance

Count the people with your group and send the numbers. Count Local and International students separately. The total is worked out for you.

Take Attendance, opened

After tapping Save

1. **Local**: tap **+** or **−**, or tap the number and type it.
2. **International**: the same way.
3. **Total** adds the two for you. Check that it is right.
4. Tap **Save**.

1. **Saved. Admin can see it now.** appears under the button.
2. The card shows your count, for example *15 people / 12 Local / 3 International*, and the pill turns blue.

IMPORTANT

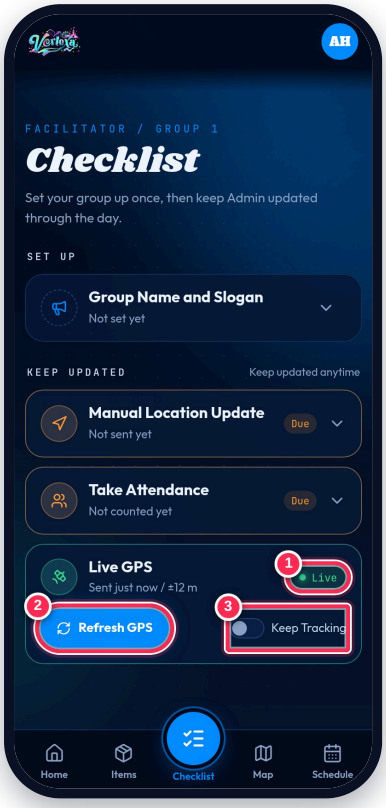

Count again about every **30 minutes**, and each time people join or leave. Save the new number. The card turns amber and says **Due** when it is time.

TIP

Count at your gathering point, before you start moving. Everyone in your group sees the same saved number.

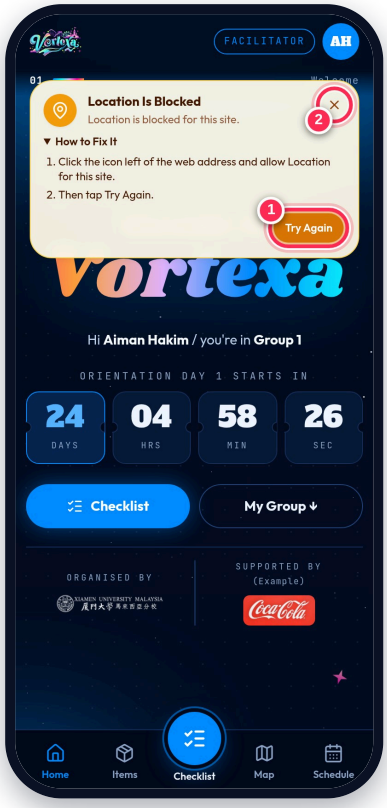

3.4 Live GPS

Your phone sends its position so your group appears on the campus map. This is separate from the Manual Location Update.

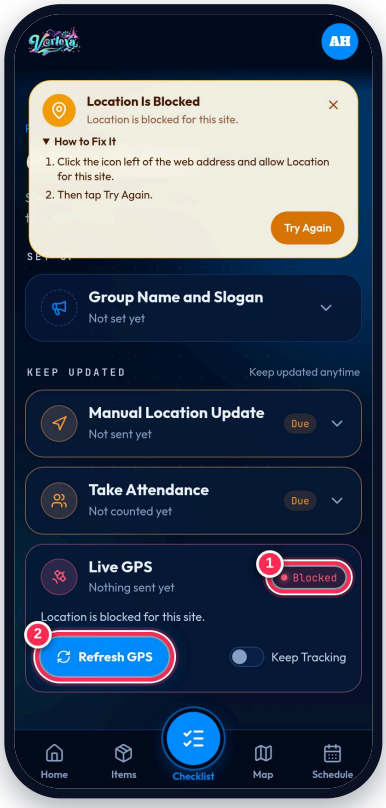

Live GPS is working

1. **Status**. *Live* (green) means your position is being sent.
2. **Refresh GPS** sends your position now. Use it after you move.
3. **Keep Tracking** keeps the screen on so the site keeps sending.

First time: Location Is Blocked

1. **Try Again** after you allow location in your phone settings.
2. **X** closes the message.

On the Checklist: Blocked

1. The status says **Blocked** (red). Allow location (below), then tap **Refresh GPS**.

How to Allow Location

iPhone (Safari)

Tap **aA** in the address bar, then **Website Settings**, **Location**, **Allow**. Then tap Try Again.

Android (Chrome)

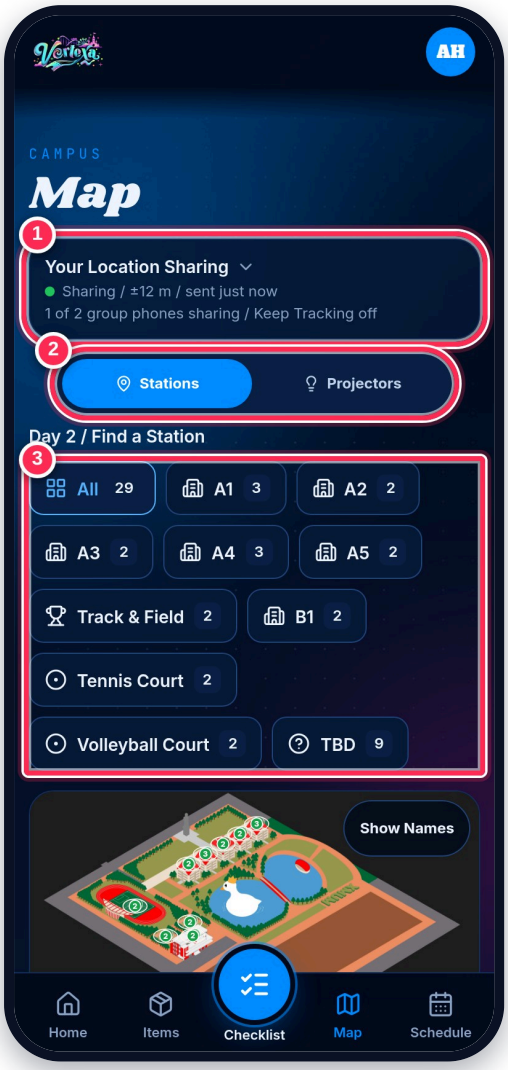

Tap the icon left of the web address, then **Permissions**, **Location**, **Allow**. Then tap Try Again.

IMPORTANT

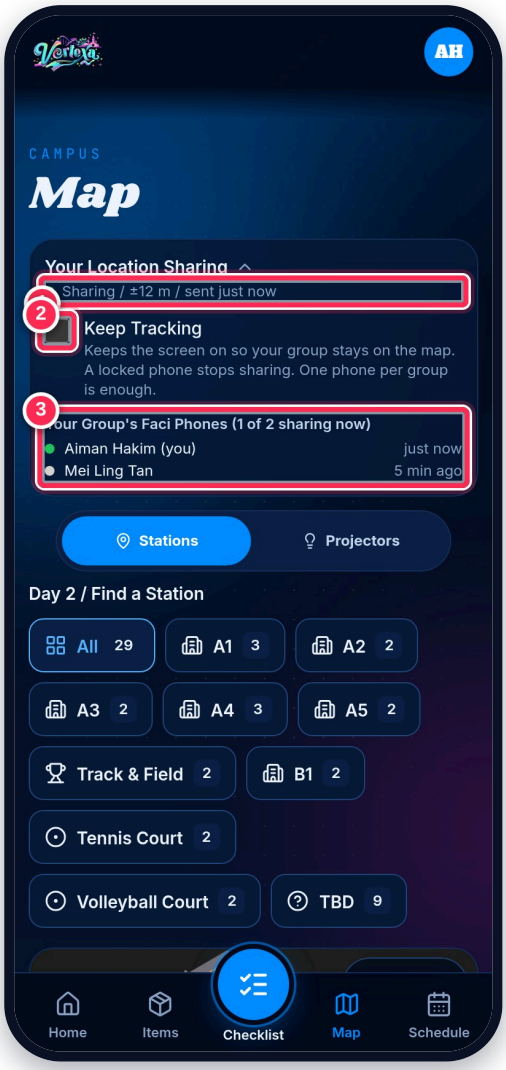

A web page **cannot** send GPS when the screen is locked or the browser is closed. On **one** phone in your group, switch on Keep Tracking and keep the site open. One phone is enough. The map uses the best recent position from any Facilitator in your group.

4.1 The Map

See the campus, find stations, and check where each group is. Open it with the **Map** tab.

Map

Your Location Sharing, opened

1. **Your Location Sharing**. A green dot means your phone is sending. Tap the card to open it.
2. **Stations / Projectors**. Switch what the map and the list show.
3. **Building chips**. Tap a building (A1, A3, B1 ...) to see only its stations. The number is how many stations it has.

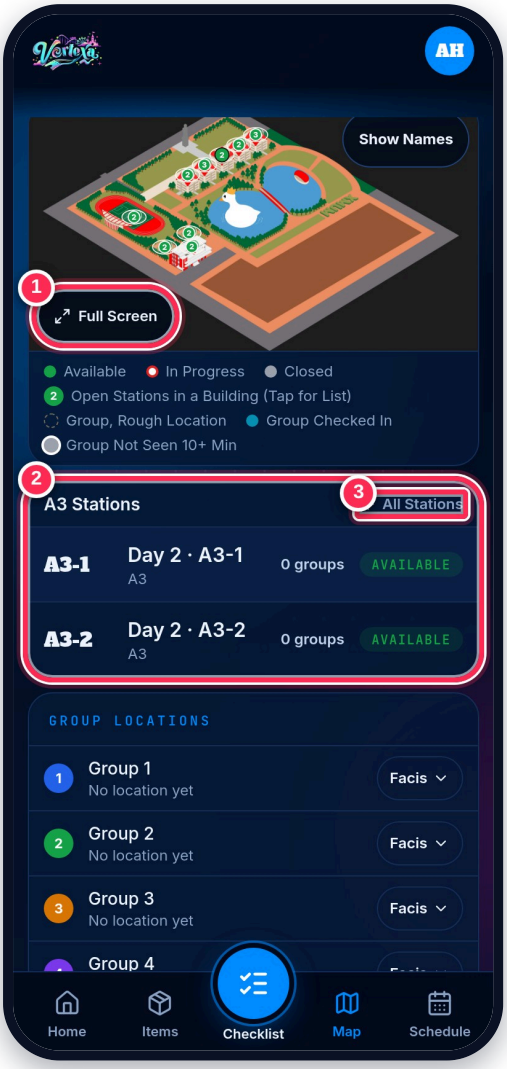

1. The status line: *Sharing / sent just now*.
2. **Keep Tracking**. Tick it to keep the screen on (same as 3.4).
3. **Your Group's Faci Phones**. Which Facilitator phones in your group sent a position recently.

TIP

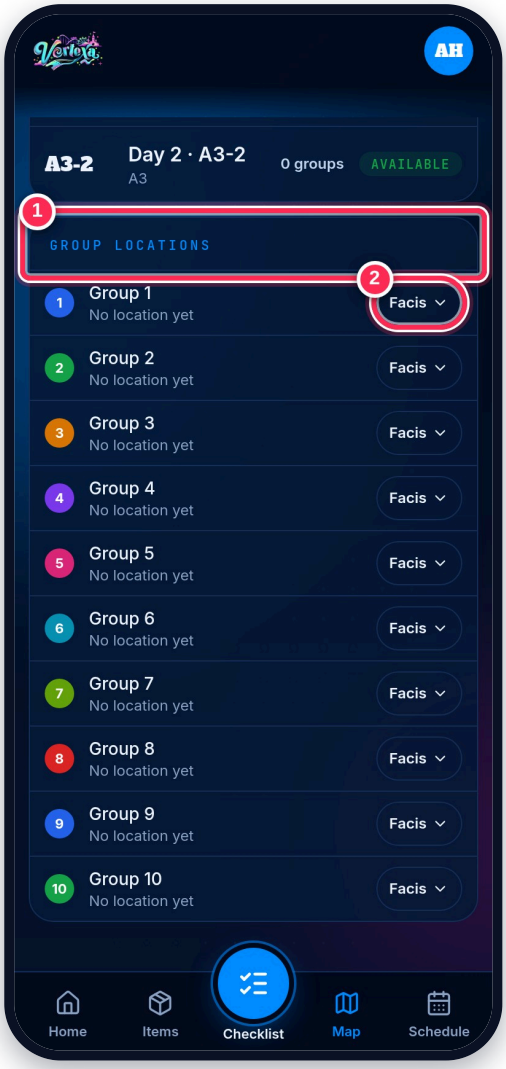

If your status says *Not sharing yet*, tap the **Share Location** button on this card and allow location when your phone asks.

4.2 Stations and Group Locations

Scroll down on the Map page to see the 3D campus, station details and every group's location.

Map / Stations

Map / Group Locations

1. **Full Screen** opens the 3D map in full screen. **Show Names** labels the buildings.
2. **Station list** for the building you chose. Each row shows the station and its status: *Available*, *In Progress* or *Closed*.
3. **All Stations** clears the building filter.

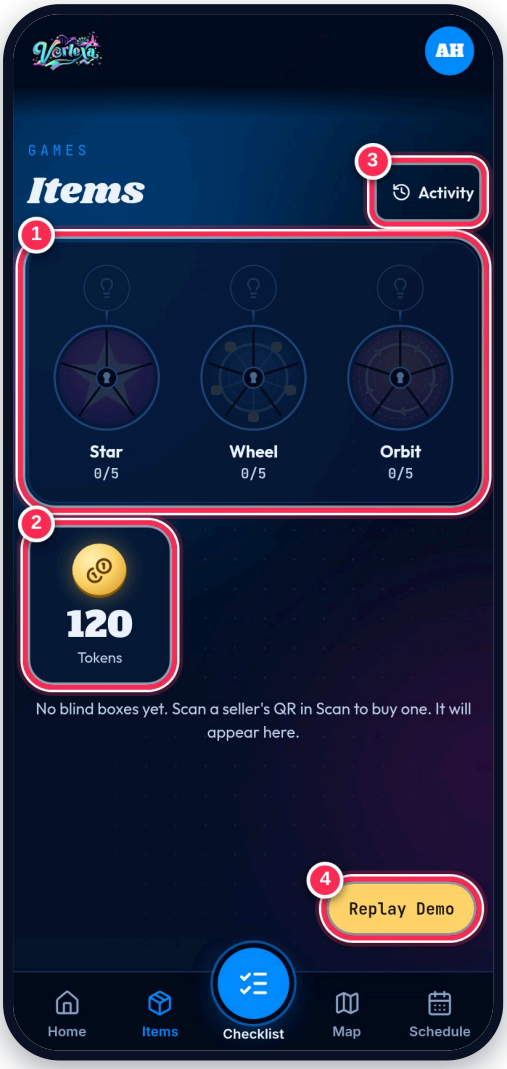

1. **Group Locations**. Every group is listed with where it was last seen.
2. **Facis** shows the names of the Facilitators in that group.

GOOD TO KNOW

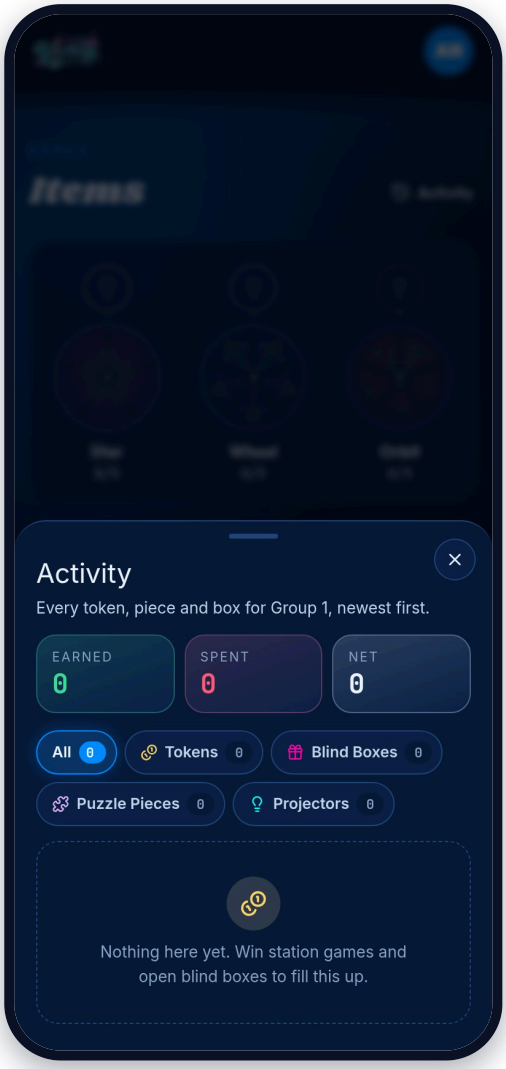

No location yet means that group has not sent a position. If this is **your** group, check Live GPS (3.4).

5.1 Items

Your group's tokens and puzzle keys. Open it with the **Items** tab. Facilitators can look, but the Freshies play the games.

Items

Items / Activity

1. **The three keys**: Star, Wheel and Orbit. Each shows how many of its 5 pieces your group has. A lit lamp means that key is complete.
2. **Tokens** your group has now.
3. **Activity** opens the history of tokens and pieces.
4. **Replay Demo** plays a short sample animation (marked *Sample data*). It does not change anything.

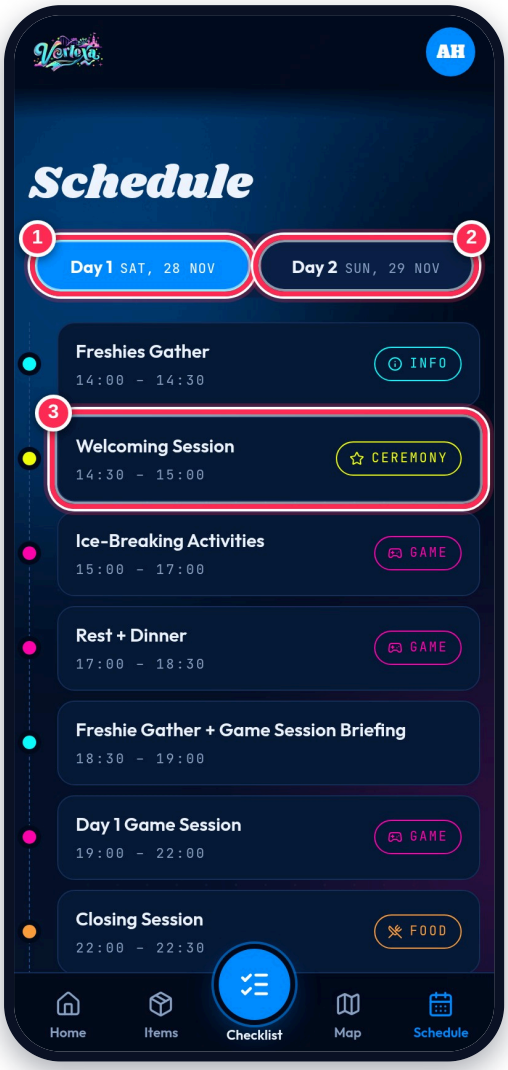

Earned, **Spent** and **Net** add up your group's tokens. Use the filters (*Tokens*, *Blind Boxes*, *Puzzle Pieces*, *Projectors*) to find one kind of entry. Tap the **X** to close.

GOOD TO KNOW

Blind boxes bought by your Freshies appear here too, but only the Freshies' login can open them. Facilitators cannot open or buy blind boxes.

6.1 Schedule

The programme for both days. Open it with the **Schedule** tab.

Schedule

1. **Day 1** (Sat, 28 Nov). Tap to show it.
2. **Day 2** (Sun, 29 Nov). Tap to switch.
3. **One programme item**: its name, time, and a label.

The Labels

INFO	A notice or a gathering.
CEREMONY	A ceremony or a session on stage.
GAME	A game session.
FOOD	A meal or a rest.

TIP

Your own crew timeline is the **Action Plan** on Home (2.2). The Schedule is what the Freshies see.

GOOD TO KNOW

Times can change on the day. Check back here and on the countdown at the top of Home.

7.1 Fixing Problems

WHAT YOU SEE ON SCREEN	WHY IT HAPPENS, AND WHAT TO DO
Home says **Group Pending**, or *No partner assigned yet*.	Admin has not put you in a group yet, so your Group Code and partner cannot show. Tell your Head of Facilitators or Admin. Nothing on your phone fixes this.
The Checklist says *You are not in a group yet*, or Save gives an error.	The same reason. Without a group you cannot save a name, a location update or attendance. Ask Admin to assign you.
Live GPS says **Not Allowed Yet**.	You have not given the site permission to use your location. Tap **Allow Location**, then tap **Allow** when your phone asks.
Live GPS says **Blocked** (red), or a box says **Location Is Blocked**.	Location was refused earlier, so the site cannot send your position. Allow Location for this site in your phone's settings (steps in 3.4), then tap **Try Again** or **Refresh GPS**.
Live GPS says **Approximate**.	Your phone is sending only a rough position, so your pin may sit in the wrong place. Turn on **Precise Location**, go outside or next to a window, then tap **Refresh GPS**.
Live GPS says **Not Sending**.	Your phone cannot find its position. Turn **Location** on in your phone's quick settings, and turn **Wi-Fi** on (it helps even if you do not connect). Then tap **Refresh GPS**.
The site opened inside Instagram, WhatsApp or another app, and location fails.	Apps like these use a built-in browser that often blocks location. Tap the ⋯ menu, choose *Open in browser* (Safari or Chrome), and log in again.
Your group is missing from the Map, or its pin is old.	The map uses GPS from your group's Facilitator phones. On **one** phone, switch on **Keep Tracking**, keep the site open with the screen on, then tap **Refresh GPS**.
An amber **Due** label is still showing after you sent an update.	**Due** means the last update is more than 30 minutes old, or none was sent. After you tap **Send Update** or **Save**, wait for **Saved.** under the button. The label then turns blue and says *just now*. If **Saved.** never appears, your signal may be weak: check your connection and send it again.
You sent the wrong number or the wrong building.	Send a new update. Admin always sees the latest one. For a bigger mistake, ask Admin.
A Freshie says the password or QR does not work.	Admin may have given your group a new password. Reload your Home page to see the new one and tell the Freshie. The QR itself never changes.
You were logged out.	Sign in again (1.1). Everything you saved, such as your group name, profile and past updates, is still there.

GOOD TO KNOW

Still stuck? Ask your **Head of Facilitators (HOF)** or a Committee member. Tell them what the screen says.

7.2 Dos and Don'ts

Do

- Set your **Group Name and Slogan** and your **Profile** before the event.
- Send a **Location Update** and **Attendance** about every 30 minutes, and when your group moves.
- Keep **Live GPS** on and the site open on **one** phone in your group.
- Charge your phone. Bring a power bank.
- Wait for **Saved.** to appear under the button before you leave the form. It is your proof that it was sent.
- Tell Admin early if something looks wrong, such as a wrong group or a missing partner. Small problems are easy to fix early.

Don't

- Don't share the **4-digit password** with other groups.
- Don't lock the screen or close the browser if you are the tracking phone. GPS stops.
- Don't share your login with anyone.
- Don't wait for the amber **Due** label. Send your update a few minutes early, so Admin always has a recent one.
- Don't try to open blind boxes or play the games for Freshies. Facilitators can only look.
- Don't forget to **Log Out** if you used someone else's phone.

What Facilitators Can and Cannot Do

YOU CAN	YOU CANNOT
See the Home page, Map, Items and Schedule	Change tokens, puzzle pieces or scores
Set your group's name and slogan	Open or buy blind boxes
Send location updates and attendance for your group	Move Freshies between groups or assign Facilitators
Share your phone's GPS on the map	See other groups' passwords or QR codes
Show your group's QR and password to your Freshies	Start or stop game phases

Quick Reference

Keep this page on your phone or print it.

I WANT TO	GO TO	TAP
Show Freshies how to join my group	Home	**My Group**, then the QR or password
Change my photo or intro	Profile button	**Edit Profile**
Name my group	Checklist	**Group Name and Slogan**, then **Save**
Tell Admin where my group is	Checklist	**Manual Location Update**, then **Send Update**
Report how many people are here	Checklist	**Take Attendance**, then **Save**
Fix or refresh my GPS	Checklist	**Refresh GPS**
Keep my group on the map	Checklist or Map	**Keep Tracking**
Find a station	Map	A **building chip**
See where other groups are	Map	Scroll to **Group Locations**
See my group's tokens and keys	Items	(just look)
Check the programme	Schedule	**Day 1** or **Day 2**
Open my crew timeline	Home	**Action Plan**, then the day
Sign out	Profile button	**Log Out**

Every 30 Minutes Location Update + Attendance + Check Live GPS
